Request to be considered by the Board

Dear Dr. Henrichs,

I would like to request approval that I may utilize Quantum Biofeedback in my office. It is computerized health scan that is designed to detect and balance any imbalances in one's health. It falls under the branches of Energetic Medicine and Biofeedback. I purchased this system in 2006 and went through trainings over the next 2 years.

I would like to be able to see Biofeedback clients and my chiropractic patients in the same office building. My sessions with clients are often 90 minutes and I do not need to be present the entire time as the system has settings for timed therapies and balancing. I will direct you to <http://www.thequantumalliance.com/indigo/testimonials/> for additional information.

I enjoy helping as many people as possible to achieve better health and have seen much improvement with Biofeedback clients. I therefore ask that you consider my request.

I am willing to do what is necessary to have these services in my office; ie. Change office name, rent space for another practitioner to utilize, hire a practitioner to utilize, etc.

Best Regards,

Dr. Dawn Prei
Chiropractor

Practitioner Testimonials

The INDIGO Biofeedback System is connecting people from around the world, with lifestyle improvements and inspiring stories.

Dr Violetta Anninou - Greece

I am a Molecular Biologist (University of Delaware graduate), Holistic Nutritionist (Clayton College of Natural Health - B.Sc., Master's and Ph D Program) and Biofeedback Specialist. I use the INDIGO in my practice for Weight Reduction, Weight and Stress Management, Anti-Aging and much more... My clients have excellent results and they all refer me new clients. So, as a result my business keeps on growing and expanding.

My clients love the device because it helps them increase their consciousness of their stress issues. They know where they are in their healing pathway and where they need to go.

Moshe Dekel, MD - New York, New York

I have been in conventional medicine as an OB-GYN for 24 years in my private solo practice. I had two offices and 18 employees and used to work 80 hours per week. In 2000, I could no longer continue to perform surgeries or deliver babies due to neck and back injury.

As I evaluated my options, I discovered holistic medicine, and after re-educating myself, I restarted my new practice and resigned from all insurance plans.

Along the way, I came across various modalities that improved my ability to help my patients. When I came across the INDIGO, I purchased it after I saw the improvement that my wife had after one session on it. Since then, I have treated 490 patients with a variety of health issues with 90% improvement rate.

Among the issues that I was able to improve were insomnia, vertigo, nightmares, panic disorders and stress, just to name a few. There have been no side effects.

One of my most memorable successes was with a 26 year old female with Interstitial Cystitis (chronic bladder pain), who was able to return to a normal lifestyle after three sessions.

In my 35 years in clinical practice, I never came across a better modality.

Ronel Newman, RN - Canada

I am a Professional Nurse (Dipl. General Nursing, Midwifery, Nursing Administration and Community health). I started the biofeedback practice last year and am now doing it full-time. I have had successes with reducing the stress and symptoms of clients experiencing skin disorders and sinusitis. Attention deficit / learning disability is also quite common in my practice - adults as well as children benefit with the INDIGO relaxation training of brainwaves protocol.

The following stress related issues have also been successfully balanced for many of my patients as a result of INDIGO stress reduction: pain, fibromyalgia, chronic fatigue, circulation, blood pressure, menopausal syndrome, infertility, nutritional and sugar imbalances, addictions, lung disorders, shoulder problems, arthritic disorders, rheumatism, digestive problems, nerval disorders, weight loss.

In general are the patients very happy with the coaching and advice they receive, as well as comforted by the fact that they are referred to other health professionals if necessary.

Dr Bruce Nelson, Holistic Chiropractic Physician - Big Fork, Montana

I am a holistic chiropractic physician, and have been doing energy work since the 80's. I have used a variety of energetic devices in my practice, and lecture internationally on Fibromyalgia and Chronic Fatigue Syndrome - two areas I have had great successes with for my patients. Using this technology (INDIGO Biofeedback) I am able to pick up on stresses and toxins that otherwise I could not find.

It assists me in my overall health assessments. As an intervention, the device is able to normalize the body's frequency patterns and give clients a greater potential to heal.

Faith Nelson, RN - Springfield, Missouri

I have been a RN health care professional for 30 years. My experience over the years has crossed many areas of allopathic and natural health care. I have pursued interests in Integrative Medicine as my passion and have acquired insight and aptitude on integrative approaches that I now utilize with my integrative practice in an independent Wellness Clinic, providing comprehensive alternative care with Chiropractic, Chinese Medicine, and Acupuncture.

My services are blended utilizing the INDIGO Biofeedback device, Auriculotherapy, Mind / Body / Energy work and electromedicine modalities for pain, stress and addictions. I also have been an instructor for this advanced technology for the past six years and feel that many health professionals are finding this as a tool to add to their practice.

Statistics have shown that more dollars are spent out of pocket on alternative approaches since 1997 and will continue to be the driving force for healthcare that is becoming more proactive and preventative with the health conscious public awareness.

Over the last five years, integrating biofeedback services for clients with headaches, fibromyalgia, smoking addictions and pain, I have been able to improve the lives of over 10,000 clients.
